Relative to amending Section 1 of Article X of the Constitution of the State of Nevada; pertaining to the assessment and taxation of patented mines, and also pertaining to the assessment and taxation of mortgages, and mortgaged property. The Legislature shall provide by law for a uniform and equal rate of assessment and taxation, and shall prescribe such regulations as shall secure a just valuation for taxation of all property, real, personal and possessory, except mines and mining claims, when not patented, the proceeds alone of which shall be assessed and taxed, and when patented, each patented mine shall be assessed at not less than five hundred (\$500.00) except when one hundred (\$100.00) dollars in labor has been actually performed on such patented mine during the year, in addition to the tax upon the net proceeds; and, also excepting such property as may be exempted by law for municipal, educational, literary, scientific or other charitable purposes; and a mortgage, deed of trust, contract or other obligation by which a debt is secured shall, for the purpose of assessment and taxation, be deemed and treated as an interest in the property affected thereby. Prospect in Best & Belcher

Mr. Zadig made a trip through the Best & Belcher underground workings yesterday. He says the prospect for finding pay ore in drifting north along the foot wall of a low grade ore body from the raise above the 365 level is favorable. This north drift is being advanced on the old El Dorado level, which will hereafter be designated as the 33-foot level in Superintendent Kinkead's weekly letters.—Report.

To Recover Damages

The case of Christie vs. Mitchell & Porter is on trial in the District Court. This is an action brought to recover \$25,335 damages for the loss of the defendant's left arm while in the employ of the defendants. A jury has been secured, and the evidence of the plaintiff put in.

The case is being prosecuted by Leishman and Currier. Torryson and Summerfield are defending the case.

Shaughnessy Acquitted

The trial of James J. Shaughnessy for murder was brought to an end late Saturday night, by the jury returning a verdict of not guilty after being out nearly two hours.

The argument was commenced at seven o'clock in the evening, District Attorney Hood opening for the State. He was followed by C. E. VanDuzer, who summed up the evidence offered in the case in a concise manner and made an eloquent plea for the defendant. J. F. Dennis concluded the argument for the defense and the District Attorney closed for the State.

The case was submitted at 10:15 o'clock and the jury came back into court shortly before midnight, delivering the verdict that made Shaughnessy a free man.

Shaughnessy's two brothers were with him in court throughout the trial and he left with them last night for Ogden.—Silver State.

Stamps For Voters

Voters who are unable to make the ordinary cross mark used in designating candidates on the Australian ballot succeeded in getting a bill through the last Legislature amending the law so that a rubber stamp must be used. This year the voting booths will be equipped with rubber stamps with which to make the legal X after the name of candidates who are voted for.

Silver Party Platform

We, the representatives of the Silver party of Nevada, hereby reaffirm the principles upon which the party was founded, as enunciated in our last State platform and declare our unyielding fidelity to those principles. We deplore the untimely death of our late President William McKinley, and express our horror at the crime of his assassination.

Money Question—We unequivocally condemn the Republican party for its attitude upon the money question. The improved business conditions which have followed the increased supplies of gold fully support the great bi-metallic contention that the country was suffering from a contracted money volume.

Many of those who are now acting with the Republican party admit that what is called Republican prosperity, is, in reality the result of more money in circulation, the very thing which the leaders of the party declared to be unnecessary.

We deny that silver is a dead issue. The question of silver coinage is merely a part of the larger question of money in general, and this question is ever with us, presenting itself in varied forms and ways.

We believe that the free coinage of silver would add largely to the measure of the existing prosperity and especially here in Nevada, a State so deeply interested in silver mining.

Bank Currency—We are opposed to every scheme for the inflation of our currency by means of bank notes which are not and can not be full legal tender, and the volume of which depends upon the caprice or interests of banks.

Revenue—The Silver party of Nevada reaffirms the revenue plank enunciated in the platform of 1900, and calls the attention of taxpayers to the fact that since that time the revenue law enacted by the Silver and Democratic legislature in accordance with such pledge that four millions of property valuation has been added to the assessment roll and the State tax thereby reduced twenty per cent.

Taxation—We are in favor of taxing patented mines and mortgages. **Trusts**—We are opposed to trusts and monopolies in every form. We favor appropriate legislation in this line, and to whatever extent the present tariff fosters and encourages the growth of these great industrial combinations, we insist that it should be modified and reduced so as to relieve the American consumer from the extortion of trusts and monopolies.

For an Eight-Hour Law—We favor the protection of labor unions in every just right and such legislation as will make eight hours a lawful day's work. We favor a constitutional amendment providing for the initiative and referendum.

Election of Senators—We adhere to the view expressed in our last State platform that United States Senators should be elected by direct vote of the people.

Education—Being proud of the educational institutions of our State which are equal to, and in many instances superior to, like institutions in other States, we cordially endorse the administration of our educational institutions and pledge our party and representatives to support the same in all proper ways.

Railroads—We recognize and appreciate the commercial improvements and concessions of the southern Pacific railroad in this State in the last

year, and urge upon that company the necessity of a terminal point in this State.

Irrigation—In common with all our people we rejoice in the enactment of the Irrigation Law at the last session of Congress.

If fairly executed it cannot fail to be of great benefit to our State in the conservation and utilization of waters now running to waste; in the equalization of the flow of the waters of our rivers and streams; in the protection of our existing farms from drought and in the reclamation of lands now unavailable for agricultural purposes.

We particularly commend the provision which guards against land monopolies and preserves the public domain for actual settlers and home seekers.

We heartily congratulate our Representative in Congress, the Honorable Francis G. Newlands, upon the conspicuous part which he took in securing this important piece of legislation.

Hon. Francis G. Newlands—In recognition of the services of the Hon. Francis G. Newlands, our Representative in Congress, we endorse his candidacy for the United States Senate.

Leasing of Public Lands—We oppose the leasing of public lands, either to individuals or corporations or their sale in large tracts, but that they be held for actual home-seeking settlers.

State Administration—We commend the administration of State affairs by the Silver party during the past eight years.

We pledge our candidates if successful, to make every effort to continue the State government upon a high standard of efficiency and integrity, and to every feasible improvement in administration.

We submit that the Silver party has been faithful to its mission, and fully merits the trust and confidence of the people.

Respectfully submitted,
H. A. COMINS, Chairman.
J. G. LUCY, Secretary.
